

## OUR SPECIALTIES.

### Website Video Production

We offer end-to-end video production for your website or social networks. Have a complex product or service? Let us simplify this through mind-blowing animations and photography. We'll develop the storyboard, add the voice-over or music and deliver the video to you in all of the necessary formats.

### Websites + eCommerce

Your website needs to be the mothership of all your digital communications. An effective, well-optimized website drives traffic, gathers qualified leads, and generates sales. Our web design process is a well oiled machine that considers your brand, budget, customers, competition and your market.

### Logos + Identity

Brand management is one of the most powerful marketing devices in today's ever-changing industry. Let our think tank of marketers and designers help you create your new brand or elevate an existing one.

### Email Marketing

Email marketing campaigns not only build relationships, trust, and loyalty, but they also reach the recipients of any country within minutes or even seconds. We can build your email marketing account, manage your list, design and deploy the email campaigns, and track the results.

## WHO WE ARE.

**We are thinkers. We are strategists. We are designers. We are perfectionists.** We are churning out some great work off the gulf coast of Florida.

We have one goal in mind – to craft work we are proud of. It's the kind of work that moves your brand toward your customers and your customers toward your brand. We're more than marketers, designers, and web developers – **we are your next big idea.**

## GET IT DONE. GET IT RIGHT.

Let's be straightforward – cliché expressions, under-performance, and stiff personalities – these are qualities you won't discover in our company. Refreshing, right?! We know! LW Marketing will, however, show you creative **marketing solutions that actually work** in today's rapidly changing world of design, advertising, and marketing.

We have a work hard, play hard mentality, so it's simple – tell us what you need. If you need web design, SEO, an awesome new video, creative copywriting, company branding, pizzazz logos, or even recommendations on good sushi restaurants in Southwest Florida, it's done. We are more than a marketing company – *Unleash us on your next project.*

**Unleash us** on your next project.
